

2011 Front Range Football Pool (FRFP)

Complete and return your enrollment form with your entry fee by September 8, 2011 before the first game starts!

Basic Pool Information for This Season

- **Pool Managers.** Curt and Marty Lorash
- **\$40 to Play.** That's less than \$3 a week! Please make checks / money orders out to: **Marty Lorash**
- **New Player Referrals.** You can refer up to 8 new players and receive \$5 back for each of your referrals who enroll and pay – you can get up to \$40 back! Check out the enrollment form. More players = bigger and larger payouts!
- **Pay via PayPal.** You can pay for your entry using PayPal, then send your enrollment form in via fax, email, or mail.
- **Copies of Weekly Sheets.** We will not be giving out packages of weekly sheets until the entry fee is paid. Last season we gave out many packages of sheets and did not have a corresponding number of people sign up—we want to keep costs down and maximize winner payouts! Players can still print weekly sheets themselves from the web site.

How To Play

1. Read these rules and guidelines.
2. Complete and return your enrollment form with your entry fee by September 8, 2011.
3. Get your weekly football pool sheets. Download sheets from www.frontrangefootball.com
4. Complete your sheet and turn it in.

On the top of the weekly sheet **print your player name** so we can read it. Please use the same player name each week. Your player name will be the same player name you wrote on your enrollment form. Be creative with your name pick – we have a lot of funny names players use.

Number your picks according to the number of games being played each week. You want to put the highest number on the team you are most certain will win, and work from there. If there are 16 games being played, use the numbers 1 thru 16. If there are 14 games being played, numbers use 1 thru 14. You want to put the highest number on the team you are most certain will win, the next highest on the next most likely team to win, and so forth. Use each number only one time. Be careful-review how many games are being played for the week before you complete your weekly sheets. It is **your** responsibility to use the correct numbers for each week.

The points you put on each team that wins their game will be added up. The player with the highest weekly points will win the weekly first place prize. The player with the second highest points will win the weekly second place prize.

Please use only the weekly sheet from the web site. These sheets are tabulated by hand each week and grading the sheets we provide is the quickest for us.

Weekly player stat sheets will be available on the web site www.frontrangefootball.com

Weekly sheets can be returned by U.S. mail, fax or email. Whatever method you choose, make sure you get weekly sheets in before the first game of the week starts. Remember that U.S. mail can be slow and the fax may get busy as the delivery deadline nears.

Payouts (More Players Mean Larger Payouts!)

20% of the total enrollment money collected will be used for administrative, communication and printing purposes.

44% of the total enrollment money collected will be used for the weekly prizes. The weekly prize money will be spread evenly over each of 17 weeks in the season. There will be two winners each week. First place gets 80%, second place gets 20% of the weekly prize total.

36% of the total enrollment money collected will be used for the end of the season prizes. This end of season prize money will be distributed as follows:

35% - 1 st place	6% - 6 th place
20% - 2 nd place	5% - 7 th place
10% - 3 rd place	4% - 8 th place
8% - 4 th place	3% - 9 th place
7% - 5 th place	2% - 10 th place

Players who finish in places 11 – 15 at the end of this season will have their entry paid for them next year! They will not get money if they do not play next year.

WE ARE ACCEPTING ENROLLMENTS NOW!

17 weeks for \$40.00
